## CAREER OBJECTIVE

Passionate and dedicated sole proprietor and full-stack developer with extensive experience crafting high-quality, user-centric applications for web, mobile, and desktop platforms. As the founder of AppLove, I possess a strong entrepreneurial spirit and a proven ability to lead projects from initial concept to successful deployment. Seeking to partner with innovative clients to transform their ideas into exceptional digital solutions.

## PROFESSIONAL EXPERIENCE

### Lead Developer & Founder | AppLove | 2025 - Present

- Led the end-to-end design, development, and deployment of multiple applications for clients across web, mobile, and desktop platforms
- Acted as the sole point of contact for clients, translating business requirements into technical specifications and ensuring project alignment with client goals
- Architected and implemented full-stack solutions using Next.js, Firebase, and native mobile technologies (Swift/Kotlin), delivering scalable and user-friendly applications
- Managed the entire project lifecycle, from initial strategy and wireframing to deployment and ongoing maintenance

### Freelance Software Developer | Self-employed | 2021 - 2025

- Delivered high-quality software solutions for a diverse range of clients, gaining experience across multiple industries
- Successfully completed numerous freelance projects, consistently receiving positive feedback for code quality, communication, and on-time delivery
- Specialized in building responsive web frontends with React and developing custom mobile app features

## FEATURED PROJECTS

- Sadaham Sarana | React, Next.js, Firebase
- Pomodoro timer | Swift, iOS
- Mindful Money | Kotlin
